 - ✓ FREE Web Acceleration (CDN) traffic usage 10GB.
 - ✓ FREE Reserved DNS / PTR Record Request.
 - ✓ FREE Remote Hand & Eyes Monitoring.
 - ✓ FREE Reboot & Power Cycling.
 - ✓ FREE Proactive Monitoring.

WHY JUPITER

COST-EFFECTIVE

Cost-effective for smaller space requirements with higher demands in terms of scalability, power capacity, and security.

MAXIMAL SECURITY

Our multi-layered security policies include access system with individual authentication using finger print biometric, Smart Card Proximity, CCTV equipment, and security officers who guard throughout 24/7. For security, we're the datacenter provider of choice.

HYBRID CAPABILITIES

One service does not necessarily fit all when it comes to colocation options. That's why, unlike many other colocation providers, we give you the opportunity to combine traditional colocation with dedicated servers and cloud computing environments to create a tailored solution.

24/7 ON-SITE ENGINEERS

As part of our colocation services, certified and highly qualified engineers are available 24/7 to perform diverse tasks at your request, including server reboots, network testing, cable replacements, and regular exchange of backup tapes or other removable media.
